

MEDIAPLAN i/o CONTRIBUTOR

MEDIAPLAN i/o CONTRIBUTOR BENEFITS

**Expand use of
file-based workflows**

**Regionalize
digitalization process**

**Standardize encoding
and metadata authoring
formats**

**Seamlessly integrate
into COMPEL® networks**

WEGENER introduces a new line of content ingest tools for file-based workflow and broadcast solutions.

MediaPlan i/o Contributor and MediaPlan i/o Professional are advanced tools for encoding video files, translating existing digital files, metadata authoring, and the creation of robust digital assets, in preparation for use within WEGENER iPump media server networks.

The MediaPlan™ i/o Contributor stations will encode either real time or tape based video into MPEG-2 files. The on-board video editor provides frame level 'trimming' and other manipulations to the digitized files, and a host of utility programs allow conversion from one file format to another. The Contributor lends it to being used at multiple, geographically dispersed contribution sites, such as, a large news gathering organization wishing to accept news footage from contributing affiliates.

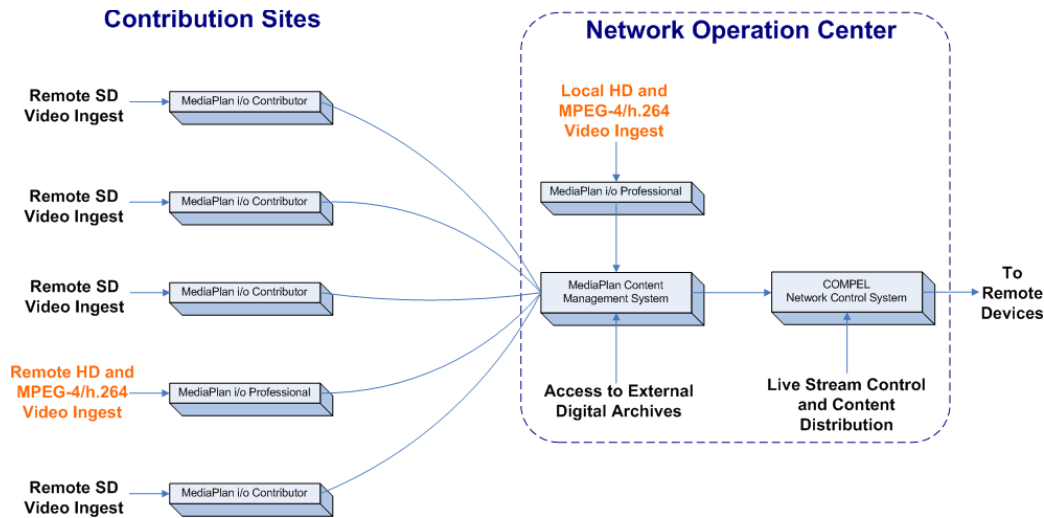

The MediaPlan i/o Contributor interfaces directly with WEGENER's MediaPlan Content Management System.

TECHNICAL SPECIFICATIONS

VIDEO AND AUDIO INPUTS

| | |
|------------------|----------------|
| Composite Video | 1 x (RCA) |
| S-Video | 1 x (Mini-Din) |
| Unbalanced Audio | 2 x (L+R, RCA) |
| Balanced Audio | 4 x (XLR) |

VIDEO PROCESSING

Encoding Formats: MPEG-1, MPEG-2, Windows Media 9, SMPTE VC-1, MPEG-4 Part 2, AVI, Quicktime, and RealVideo / RealAudio (Helix) 9 & 10.

- Aspect ratio conversion
- Cropping and scaling
- Proc amp control
- Gamma correction
- Graphics overlay with scaling and positioning

COMPUTER HARDWARE

- Intel® Core™2 Duo Processor E6550 (2.33GHz, 4MB L2Cache, 1333FSB),
- 1GB RAM
- 160GB Serial ATA drive
- 48x CD Burner / DVD-ROM Combo Drive
- 128MB NVIDIA® GeForce® 8300GS VGA,
- Integrated 7.1 Channel Audio
- Windows XP Pro

VTR CONTROL

Sony, JVC and Panasonic RS-422 serial VTR control

ETHERNET

10/1000 Network interface

3RD PARTY SOFTWARE

TMPGEnc 4.0 XPress
Frameshots, version 3.0

WEB BROWSER

Application: Internet Explorer
Versions: 6 and 7

| Features | MediaPlan® i/o Professional | MediaPlan® i/o Contributor |
|---------------------------------|--------------------------------|-------------------------------|
| S-Video & Composite Video Input | | X |
| SDI/HDSDI Video Input | X | |
| SD video | X | X |
| HD video | X | |
| MPEG-2 | X | X |
| MPEG-4/h.264 | X | |
| Analog Audio Input | X | X |
| Digital Audio Input | X | |
| Video Editor | X | X |
| Video Diagnostics | X | X |
